Key Emergency Services Offered:

Our Emergency Department is equipped to handle a wide range of medical emergencies, including:

Trauma Care

Rapid assessment and management of traumatic injuries, including fractures, lacerations, and head injuries.

Respiratory Emergencies

Treatment for respiratory distress, asthma attacks, and other acute respiratory conditions.

Gastrointestinal Emergencies

Evaluation and treatment of acute abdominal pain, gastrointestinal bleeding, and related conditions.

Infection Management

Rapid assessment and treatment for severe infections, including sepsis.

Poisoning and Overdoses

Immediate care for poisoning or drug overdoses, including stabilization and detoxification.

Stabilization and Transfer Services

If specialized care is needed, we ensure seamless transfers to appropriate facilities while maintaining patient safety.

Why Choose AIH for Emergency Care?

Our Emergency Department is equipped to handle a wide range of medical emergencies, including:

Advanced Medical Facilities

Our Emergency Department is equipped with advanced medical technology and resources to provide effective treatment.

Multidisciplinary Team

Our experienced team of doctors, nurses, and support staff work collaboratively to ensure comprehensive care for all patients.

Patient-Centered Approach

We prioritize patient comfort and satisfaction, ensuring you receive compassionate care in times of need.
